# Guide to the E-Café Self-Assessment

The [Self-Assessment](#) aims to find out where you are in your entrepreneurial journey. In our analysis, we take various factors into account. It is based on the European Entrepreneurship Competence Framework (EntreComp), a comprehensive reference framework developed by the European Commission. EntreComp creates a common understanding of entrepreneurship and identifies the competencies that make someone an entrepreneur.

## Who is it for?

It is aimed at people who want to start their own business, or want to develop their entrepreneurial skills.

## Why should you do it?

It will help to find out whether you already have the entrepreneurial competencies to help for you to be a successful entrepreneur.

## Find help in our Toolbox!

The feedback report shows your development potential and suggests specific tools from our toolbox to strengthen your entrepreneurial attributes.

# How to use the Self-Assessment

In the self-assessment, we ask you some simple questions. At the end of the assessment, you can download your individual feedback report which summarises your results. Your report will outline your own personal evaluation in three areas:

## Ideas & Opportunities

This area is about recognising and acting upon ideas and opportunities to create value for others.

## Resources

This area is about the specific resources needed in entrepreneurship and the skills to mobilise them.

## Into Action

This area is about being able to turn ideas into action. Initiative, management, decision-making and teamwork play a big role here.

In addition, the individual feedback report, will help find recommendations on which tools you can use to develop your entrepreneurial skills further.
